

Actor

```
classDiagram
    class Actor
    class Item["nl.arjanfrans.mario.model.Item"]
    Item --|> Actor
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Actor'. Below it is a larger, shaded box labeled 'nl.arjanfrans.mario.model.Item'. A blue arrow points from the bottom of the 'Item' box up to the bottom of the 'Actor' box, indicating that 'Item' inherits from 'Actor'.

nl.arjanfrans.mario.model.Item
